PROFILE INFO

I am a dedicated and skilled Software Engineer with a strong foundation in developing and designing user-centric web and mobile applications. With hands-on experience in a range of modern technologies like JavaScript, React.js, Next.js, and Express.js, I excel in creating intuitive and responsive interfaces.

WORK EXPERIENCE

Swagg

2024 - PRESENT

Frontend Software Developer

Buea, SouthWest - Cameroon

- Design and Develop beautiful and intuitive user interfaces for the mobile application.
- Collaborate with the backend engineer to ensure seamless integration of the frontend and backend.
- Lead bi-weekly review meetings on the project.

ClingsTech

July 2023 -

Software Engineering Intern

September 2023

Douala, Littoral - Cameroon

- Developed a local bookshop management solution using React.js and express.js principally.
- Collaborated with other interns in their project by lending a hand whenever I was needed

PROJECTS

AlumConnect

2024

Alumni Mentorship Platform for the University of Buea

(Unofficial)

- Implemented a Fullstack web Application with a number of decent features
- Used up-to-date Technologies such as Next.js and Prisma for better performance overall
